A.Y. McDonald Mfg. Co. is pleased to offer a superior quality, competitively priced line of cast iron meter box frames and covers.

This fine line of products is designed for lawn and sidewalk installations. Contact factory for interchangeability with other manufacturers.

**Features**
- Extra heavy covers available. Contact factory.
- Both flush and recessed covers available.
- Frames have cast in centering lugs for tile.
- Covers can be supplied for use with remote read meters.
- Covers can be private labeled (minimum order quantity is required). Contact factory.
- Cast iron riser rings available with inner lid for use in colder climates.
- Locking worm gear swedged onto bronze pentagon bolt.
- Pentagon bolt available in two sizes.
- Extension rings available for 18" and 20" frames.

**Materials**
- Gray cast iron.
- Black paint coating.
- Bronze pentagon bolt/lifter style.
- Cast iron worm gear lock swedged to bronze pentagon bolt.
- Washers (1) copper (1) plastic.

**Pentagon Bolts**
- Small water works pentagon bolt furnished as standard.
- Large pentagon bolt available. ("LB" Option)
1. Make sure the frame and cover fits securely onto the meter pit. A.Y. McDonald Mfg. Co. frames have positioning lugs that extend from bottom of frame to prevent the frame from sliding off of the meter pit.

2. Backfill around the frame and make certain the grade is level with the top of the cover. This will help avoid a tripping hazard.

3. Install cover onto frame and lock securely into place. Standard locking style covers are preferred in order to prevent unauthorized removal which could cause a safety hazard. If a lockless style cover is specified, make certain it fits properly into the frame and is not subject to sliding or tipping out of position. Lockless lids have extra long alignment lugs to help keep the lid in place.

4. Frames and covers are designed as a unit and it is not a good practice to intermingle frames and covers from various manufacturers. User assumes all risk of mixing A.Y. McDonald frame and cover with another manufacturer’s frame and cover.

5. Check on a regular basis to ensure proper operation of locking devices and to make certain the meter box cover remains at ground level.

All locking covers feature a unique “worm” type gear. Two things happen as the key is turned and the cover is opened:

1. The cast iron worm gear rotates, applying a powerful screwjack action between the cover and frame to break any seal of ice or dirt,

and

2. The key attaches itself to the bronze pentagon bolt, forming a lifter handle for the cover, then automatically disengages from the bolt as the cover is locked.
A.Y. McDonald Mfg. Co.
Electronic Meter Reading covers
A.Y. McDonald Mfg. Co. covers are available with cast holes for a remote electronic meter reading module. These covers are especially configured for this purpose, and are manufactured so that the electronic meter reading module will seat against a flat surface.

To Order: For Single Hole Electronic Meter Reading Covers, add one Catalog Number Suffix letter (see table) to the Model Number.

Example: When adding a Single Hole to a 74M32W frame and cover (for the installation of a single TouchRead™ module) the model number would be **74M32WT**. Add two T's for a Double Hole Electronic Meter Reading Cover. For example, **74M32WTT**.

Electronic Meter Reading Cover with Removable Plug
An optional cast iron plug (removable for future electronic meter reading module installations) is available for all electronic meter reading covers. This option is designated with a "TP" for a single hole with plug cover, or a "TTPP" for a double hole with double plug cover. **Example: 74M32WTP.**

*These measurements approximate the module space requirements inside the meter pit.

Height measurement is from top of cover to bottom of module.
Cover thickness may determine the exact module extension into the meter pit.
Meter Box Frames and Covers

General Information

Meter Box Frames and Covers Numbering System

Order meter box frames and covers according to the following numbering system to get the correct product.

Model 74M31ATT means:

| Series 74M |
|---|---|---|
| Meter Box Frames and Covers |

Assembly Styles

A - Recessed Cover and Frame
1A - 8" A cover, 15" frame
31A - 11 1/2" A cover, 15" frame
32A - 11 1/2" A cover, 18" frame
AL8 - 8" A cover only
AL95 - 9 1/2" A cover only
AL115 - 11 1/2" A cover only
AL15 - 15" A cover only

C - Non-recessed Cover and Frame
12C - 8" C cover, 18" frame
31C - 11 1/2" C cover, 15" frame
32C - 11 1/2" C cover, 18" frame
3C - 11 1/2" C cover, 20" frame
4C - 11 1/2" C cover, 21" frame
52C - 15" C cover, 18" frame
53C - 15" C cover, 20" frame

W - Recessed Cover with Inner Lid, Riser and Frame
31W - 11 1/2" A cover, 15" frame, and plastic inner lid
32W - 11 1/2" A cover, 18" frame, and plastic inner lid
3W - 11 1/2" A cover, 20" frame, and plastic inner lid
4W - 11 1/2" A cover, 21" frame, and plastic inner lid
AL115 - 11 1/2" A cover only

Options

A - Aluminum inner lid with assembly
CV1300 - Special oval lid with recessed hole
D - 2 1/4" center hole
E - Non-locking cover with hook
H - Extra heavy monitor cover
HH - Double extra heavy monitor cover
IL - 20" cast iron inner lid only
LB - Large pentagon bolt
N - Non-locking cover
NL - Non-locking-Less bolt and worm gear
P - Plug assembled in cover hole
PP - Two plugs assembled in offset holes
R - Recessed cover with touch pad option
RB - Recessed touch pad option (7")
RG - Oblong 2" hole
RR - Double recessed touch pad option (4 1/2")
S - Recessed 4.15 diameter pad
SW - Sewer special
T - Offset right single hole
TC - Center hole
TT - Two offset holes

NOTE: ALL LID OPTIONS ARE NOT AVAILABLE ON ALL MODELS.

Accessories

CIPL - Cast iron plug and cotter pin assembly only
CW - Copper washer
G - Cast iron worm gear
LB - Large pentagon bolt
PW - Plastic washer
SB - Small pentagon bolt
KEY - Combination key
SBA - Small bolt assembly
LBA - Large bolt assembly
PN - Cotter pin
WR - 5 1/2" riser ring for A and W frame
**Series 74MA • Recessed Cover & Frame**

- Designed primarily for lawn and sidewalk installations.

*Note: For heavy duty
74M32A - change "M" to "H" (Example: 74H32A)

**Meter Box Cover**
- Designed to fit into meter box frames.

**Meter Box Frame**
- Allows an 11 1/2" or 15" clear opening.
- Centering lugs for 15", 18", 20", or 21" tiles.
